

R5

Industrial parts cleaning machine with solvents

Powerful and efficient

R5 POWERFUL AND EFFICIENT

Thanks to its highly efficient process technology and low energy consumption, the R5 offers excellent cleaning results combined with high throughput.

CHOOSE BETWEEN TWO SERIES

Two series cater for loading and unloading from either the short or the long side of the unit.

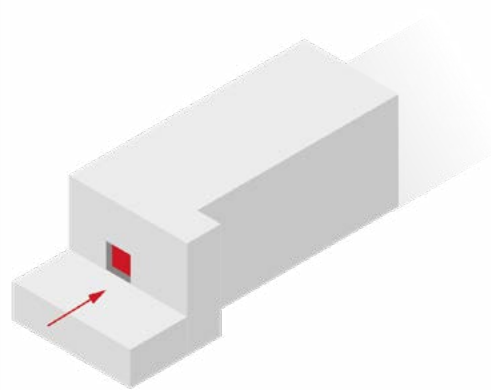

X-SERIES

(loading and unloading at long side of machine)

Y-SERIES

(loading and unloading at short side of machine)

PROVEN QUALITY

The machines of the R5 series make use of the specific properties of solvents for the cleaning, degreasing and/or preserving of parts. Operators can choose from a range of conventional solvents that achieve optimum cleaning results, taking into account the actual level of contamination of the parts.

- **High availability** High availability thanks to top-quality, standardised and tested components from leading manufacturers
- **Perfect media treatment** with permanent full-flow and optional bypass filtration
- **Saving costs** with Pero full vacuum technology with extra low solvent and stabilizer consumption
- **Flexibility** thanks to modular machine extensions
- **Unrivalled operator comfort** thanks to automated, timer-controlled maintenance routines

ECOLOGICAL & ECONOMICAL

All process steps take place under full vacuum. This supports cleaning in solvents, reduces energy consumption and allows short cycle times with maximum safety.

- High level of technical cleanliness thanks to combined **cleaning, rinsing** and **vapor-degreasing** processes
Optional: ultrasound cleaning and/or preservation
- **Maximal energy efficiency:** heating output controlled by Energy Manager
- Model "Universal" for exceptional **future security:** allows optional modification from CHC to alternative solvents such as hydrocarbons or modified alcohols
- Redundant process monitoring combined with fire and explosion protection equipment **protects humans and the environment**

Cleaning parts in mesh boxes holding up to 1,000 kg

Automatic charging unit with 3 slots for extra high throughput

User-friendly control interface

TECHNICAL DETAILS – R5

External machine dimensions R5X (crosswise)

R5	1-Bath	2-Bath
H	3,3m	3,3m
L	7,6m	9,4m
W	3,0m	3,0m
W*	5,2m	5,2m

* manual charging unit

CLEANING MEDIUM

Hydrocarbons or modified alcohols with flashpoint > 55° C; halogenated hydrocarbons; further solvents on request

BATCHES / GOODS CARRIERS

Standard-external dimensions
(L × W × H), max. 1 × 1.250 × 850 × 970 mm (Euro-Mesh Box) or 6 × 660 × 480 × 300 mm

further sizes or combinations on request

Batch weight, max. 1.000 kg

Height of charging unit depending on charging method

THROUGHPUT

Depending on chosen process up to 4 batches / h

PERFORMANCE DATA

Connected load approx. 151 – 163 kW

Heat output 36 / 54 kW, selectable (energy manager)

Heating-up time of machine approx. 120 min

Sound level < 75 dB (A)

Solvent volume 1-bath 4.100 l

Solvent volume 2-bath 7.100 l

OPTIONS

e.g. ultrasound, remote maintenance, preservation bath, etc.

All specifications are approximate values and may vary depending on equipment – errors and omissions excepted

FOCUSED ON OUTCOMES

At our Centre of Competence in Königsbrunn, we assist you in finding the best cleaning solution for your specific needs.

More than 15 water- and solvent-based test machines are available in an area of 1000 m². We design optimised cleaning methods and programs that meet your needs by performing test runs with your own dirty parts.

Even before you have decided about the investment, assessing the profitability of the future process can be carried out. The defined technical cleanliness of the components reliably reached and maintained.

MAKING USE OF STRONG PERFORMANCE

- Cleaning tests free of charge, using parts provided by the customer; including documentation
- Evaluations and analyses of cleanliness according to VDA 19 in our laboratory

RELIABILITY YOU CAN BANK ON

Safe and reliable

High-precision production and spare parts service

Quality made in Germany

80% vertical range of manufacture in Germany

Worldwide sales and service

Global network of certified service partners
